REASONS:

1968 – first exhibition

2010 – new life of the
project

Realization of the government program “St. Petersburg – the Marine Capital of Russia”, supported by the Maritime Collegiums of the Government of the Russian Federation

The Maritime Collegiums by the Government of the RF determined as the priority issues: the development of the fishery and transporting fleets, including the introduction of legislative and economical mechanisms, aimed at the loading of national ship-yards by the orders from fishery ship-owners with purpose of overcoming of aging and obsolescence of Vessels

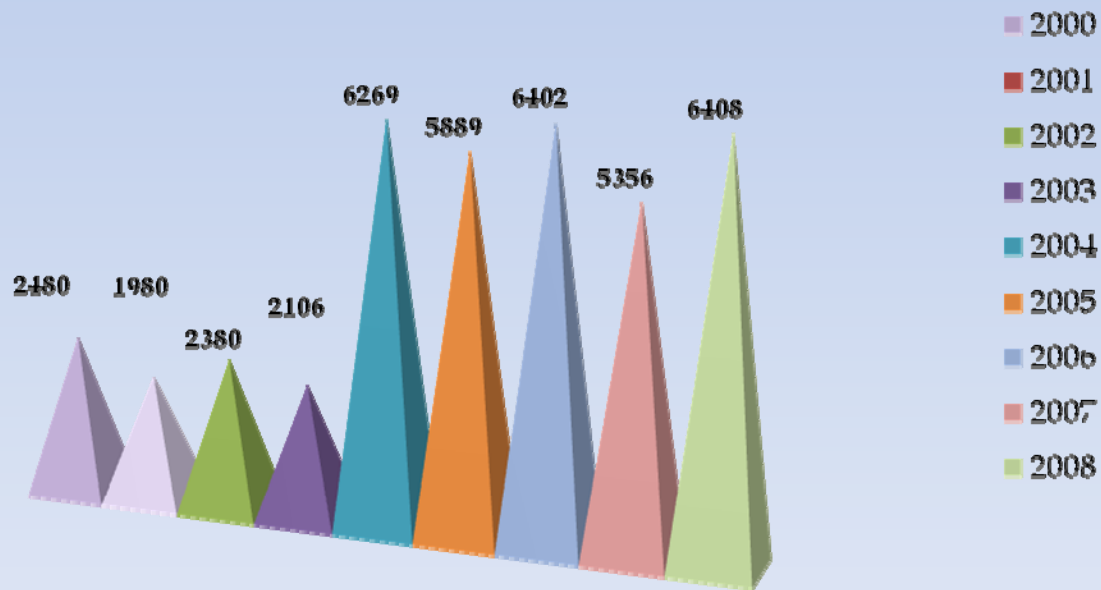

The Federal Fishing Agency of the Russian Federation in the 2008 set the task “... to return to the areas of global fishing. The state must create favorable conditions for construction of he new fishery fleet on the Russian shipyards”
