Das Ministerium für Wirtschaft informiert über Luxemburg als Investitionsstandort. Das Ministerium bietet interessierten Unternehmen einen maßgeschneiderten Service an:

- Informationen über Kosten, Einreise und Einwanderung, Personal und andere Rahmenvorschriften in Luxemburg
- Beratung zu Finanzierungs- und Fördermöglichkeiten
- praktische Hilfe einschließlich Besuche von Büro- und Industrieparks
- fortlaufende Unterstützung auch nach der Ansiedlung

The Ministry of the Economy offers comprehensive information about Luxembourg as a business location as well as guidelines and tailor-made settlement support for companies interested in setting up in Luxembourg:

- information on cost, market entry and immigration, human resource and other framework regulations
- advice on financing and incentive opportunities
- practical help including visits to offices and industrial parks
- continuing support after setting-up

As a professional chamber and public institution encompassing all sectors of business other than agriculture and the handicraft industry the Chamber of Commerce conceives its rationale and its role as guardian of the interests of its affiliated companies. These often constitute a motley group with divergent sectorial interests. That is why, in a spirit of fairness to all its members, the Chamber of Commerce sees its primary mission in the articulation, the representation and the defense of the general economic interest of all its members.

The Chamber of Commerce has today more than 90,000 affiliated members, representing 75% of total employment and 80% of GDP.

Arthur Welter Transports, a family owned company based in Luxembourg, since 1962. Today, our fleet of 800 vehicles serves clients in Luxembourg and throughout all Europe.

- Oversize trucking.
- Temperature controlled trucking & GDP Transports.
- High value trucking: Track & Trace system, security locks...
- Logistics services: National & regional distribution, parcel delivery, warehousing.
- Chartering.
- Customs clearing agencies & Intrastat declarations.

OUR VALUES:

high quality customer service, freight security and green logistics.

In a world of increasingly complex logistics requirements, **Cargolux Airlines International S.A.** has established itself as a leading provider of reliable, high-quality air cargo services.

Founded in Luxembourg in 1970 with a handful of CL-44 aircraft, the company has developed into Europe's largest all-cargo airline, operating a steadily expanding fleet of efficient, purpose-built Boeing 747-8 and 747-400 freighters.

Cargolux was the world's first operator of both aircraft types and uses its modern fleet and a number of trucking contractors to move valuable and time-sensitive commodities on its worldwide network that covers some 90 destinations with more than 85 offices in over 50 countries.

In more than 45 years of operations, **Cargolux** has become an expert in handling a variety of delicate types of shipments. Live animals, perishables, temperature-sensitive shipments and outside freight benefit from the experienced **Cargolux** touch.

Cluster for Logistics Luxembourg

The association Cluster for Logistics (C4L) aims to develop the logistics sector in Luxembourg within the framework of its economic development policy. C4L has currently over 100 members and encourages all initiatives that strengthen Luxembourg's position as intercontinental logistics hub.

The Cluster's missions are the following:

- serve its members as a neutral coordination, information and communication platform.
- represent the interests of all its members by expressing common positions in relation with the future development of Luxembourg as logistics hub.
- drive its members to innovate and develop their logistics skills as a main factor of competitiveness.
- serve its members as a neutral coordination, information and communication platform.
- act to increase the recognition of logistics in Luxembourg and promotes Luxembourg as a logistics hub abroad.

DuPont, science and technology-based company, operates in approximately 90 countries across the world. The Company founded in 1802 successfully brings new products and patent applications to market meeting urgent needs in sustainable energy, safer food, safety and protection.

Since the initial discovery in 1955 that led to **Tyvek®**, **DuPont** has been a recognized global leader in selective barrier technology.

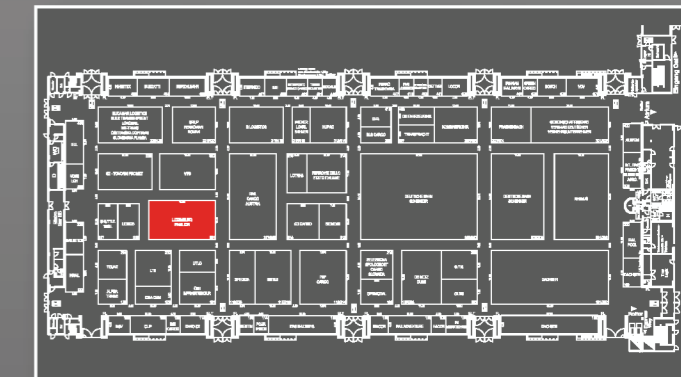

Tyvek® is made of pure high-density polyethylene filaments (HDPE) and it is strong, durable, breathable, tear resistant and easy to use. Thanks to its unique features the **Tyvek®** range of lightweight cargo covers provide vital thermal protection to pharmaceutical shipments used in the short-term storage and distribution of temperature-sensitive products.

DuPont™ Tyvek® Cargo Covers have been specifically developed to address the heat flow mechanisms that are at work in the fluctuating air temperature scenarios typically found in cargo logistics.

The latest addition to the **Tyvek®** family of cargo covers is the **Tyvek® Xtreme™ W50 Cargo Cover**.

Fitted with a proprietary insulative layer, the new product retains the reflective and permeability characteristics of the standard **Tyvek®** product while extending both its hot and cold temperature performance span. The result is a lightweight cargo cover which can be used in CRT categories where there is a need for frost as well as heat protection.
