

Economic mission to Bremen on the 4th-5th February 2016 led by the Minister of Economy Etienne Schneider

In February 2015 the Chamber of Commerce has welcomed an economic delegation from Bremen led by the former mayor of Bremen Jens Böhrnsen. About 20 representatives from the space, energy and logistics sector joined the visit to get to know Luxembourg's economy.

From the 4th to the 5th February 2016 a return visit to Bremen will take place led by the Minister of Economy Etienne Schneider and the Chamber of Commerce cordially invites Luxembourg companies to join the two-day visit.

The takeover of the Klöckner Hütte Bremen in 1994 by - at the time – Arbed and the foundation of Luxspace by the Bremen company OHB in 2005 in Luxembourg are two already existing pillars of a good collaboration between our two countries. Moreover we are linked by common economic interests in the automotive, space and logistics industry.

The program therefore addresses companies from the materials, automotive, space and logistics sector.
