ChangeNOW  
Trade Fair Visit

30 March - 1 April 2026 - Paris (F)

## PROGRAMME

This document presents a suggested programme designed for the Luxembourg delegation attending ChangeNOW 2026.

The Summit brings together leading voices in sustainability, with renowned speakers such as Professor Johan Rockström, lead scientist behind the Planetary Boundaries framework, and Kate Raworth, creator of Doughnut Economics. The proposed schedule below highlights selected conferences and sessions that may be of particular interest, while participants are of course free to explore the full programme available on the [ChangeNOW website](#).

The entrance ticket grants access to all three days of the ChangeNOW Summit.

Please note that the programme also includes an official reception at the residence of H.E. Mr. Marc Ungeheuer, Ambassador of Luxembourg to France.

### Important notice

Participants are personally responsible for their transport and hotel reservation. You can visit the [ChangeNOW website](#) to book efficient and eco-friendly transportation options, as well as a hotel with exclusive rates. We also recommend two specific hotels to make it easier for the delegation to stay in the same location and connect more seamlessly:
