## SciPharm

SCIPHARM S.À.R.L. was established in 2010 to develop pharmaceutical treatments against orphan diseases. In relation to this, SciPharm also became involved in the development and distribution of high precision ambulatory infusion pumps as well as implantable infusion pumps. Since several years now, our focus is on Medical Devices. Besides our R&D activities, we act as European Authorised Representative, Importer and Distributor. Our flagship project is a platform that connects to Medical Devices to enable remote monitoring as well as distant programming of these devices. The design of the platform is such that both MDR and GDPR requirements are met.
