The screenshot shows the homepage of the CzechInvest website, which is the Investment and Business Development Agency. The header includes the logo, navigation links (About CzechInvest, Contact us, Press Centre, Publications), a search bar, and social media icons. A left sidebar lists various categories such as Czech Republic, Target Sectors, and Our Services. The main content area features a 'Target Sectors' section with a grid of icons for Nanotechnology & Advanced Materials, Automotive Industry, Aerospace, Energy & Environment, Life Sciences, High-Tech Mechanical Engineering, ICT, Business Support Services, and Green Mobility. Below this, there are two paragraphs of text explaining the agency's focus and the specific needs of these sectors. At the bottom of the main content area, there is a video player showing a car on an assembly line.

We understand that each sector has specific needs that must be met in order to prosper. The Czech Republic can satisfy the most demanding of those needs in many different sectors. CzechInvest focuses on the support of those sectors in which it sees significant potential for development.

For each of these sectors, CzechInvest has a specialist who can provide investors with in-depth sector-specific information. The Czech Republic is also an attractive location for investment in research and development. Companies that have decided to place their R&D operations here, such as Honeywell, Rockwell Automotive, Bosch and ON Semiconductor, particularly appreciate the country's high-quality human capital. With the help of EU structural funds, extensive research capacities, in the form of science and technology parks and incubators for example, are being developed.
