## Charles Gosselin

## Overview on the policy priorities of the Logistics Service & Marketing Work-group

1.	<b>Select products and services to develop logistics in Luxembourg</b>
2.	<b>Define the requested infrastructure for the development of logistics in Luxembourg</b>
3.	<b>Promote Luxembourg by a regular presentations in local press</b>
4.	<b>Develop a common marketing policy for Luxembourg with a strong message</b>
5.	<b>Use Luxembourg as demonstrator for green urban logistics</b>

- **2006 Decision of transforming the WSA site into a Logistic hub**
- **2013 Start of the construction phase.**
- **What has been done :**
  - **Preliminary studies (developing ideas, master plans,..)**
  - **Study on environmental impacts**
  - **PAP / PAG**
  - **Commodo**
  - **Some of these items are still in process and should be completed end 2012**

## What has already been done or still in process

- Soil remediation
- Demolition works
- Water, waste water & electricity networks
- Excavation works
- ...etc

**The first warehouse construction should start in 2013**

**The first logistic activity should start 2014 - 2015**

**We look forward to have a modern and efficient logistic hub full operational as soon as possible.**
