MICRO
FOCUS

Enforce some rules….

… and look how creative they can be !

Our mission….

The Right Balance

Control

Flexibility

Typical file access and sharing can be …

Rigid

Slow

Frustrating for users

MICRO FOCUS®

Then two things happened …

Users discovered easy file sharing on any device

and they love it!

Exciting new devices

Free cloud-based file sharing

Posing new challenges for IT

No Action

=

Risk !

MICRO
FOCUS

Device challenges

rks.

e Management

ZENworks Mobile Management

Manage both enterprise-owned and personal (BYOD) devices

Protect your business with mobile device security

Support a broad range of mobile platforms

MICRO FOCUS

What about file access and sharing?

Strong demand for a great file solution

Want a "Dropbox-like" experience

Files need to stay on the file servers

Need access to files where they're stored

Existing access controls must be honored

Use case examples

The Sales Guy

Bob is on the road and needs to make some urgent changes to a document using his iPad

The Project Team Lead

Tina needs to set up a new project folder for her team to share all related documents

The Marketer

John needs to tweet a link to the latest partner program guide

MICRO FOCUS

Introducing Micro Focus® Filr

Simple mobile file access and sharing

IT remains in control of what's shared and how

Users can access home directories and folders

MICRO FOCUS®

File access in Micro Focus Filr

Your personal files (can be mapped to your home directory)

The files and folders you are currently sharing with others

Consistent experience

Windows XP, 7, 8

Mac OS X 10.7, 10.8

iOS 6.x and later

Android 2.3 and later

Windows phone 8.0

BlackBerry Playbook and Z10

Web access

Novell. Filr

My Files Shared With Me Shared By Me Net Folders

See what's new (new shares, updates, comments)

Files and folders other users have shared with you

Shared folders assigned to you by the IT admin (for example, G:\Finance)

MICRO FOCUS
