

## Chamber's budget requests

Whilst happy overall with the content of the 2008 state budget, the Chamber of Commerce warned that a slowdown in the world economy could upset the calculations. To guarantee the long term stability of the country, they recommended a series of measures including an aim of a budget surplus, strengthening fiscal attractiveness, maintaining investment, greater budgetary transparency... The State Council and the Central Bank also made similar noises, warning that the current levels of prosperity are not guaranteed for the future.
