

SME PACKAGES **SUSTAINABILITY**

**START YOUR SHIFT
TO SUSTAINABLE
AND ENVIRONMENTALLY
FRIENDLY SOLUTIONS!**

**DO YOU WANT TO LOWER
YOUR GREENHOUSE
GAS EMISSIONS?**

**ARE YOU TRYING
TO LOWER YOUR
ENERGY USAGE?**

**DO YOU WANT TO CUT
YOUR WATER CONSUMPTION?**

**DO YOU WANT
TO MANAGE
YOUR WASTE
MORE EFFECTIVELY?**

Sustainable growth is a crucial concern for the future and an immediate source of savings, regardless of your industry. You can make a positive impact on the environment and optimise your economic performance by enhancing your company's social and environmental impact.

Companies can identify sources of savings as well as opportunities for growth and innovation by setting up a sustainable roadmap with positive impact actions. Such an approach also has a positive effect on the company's ability to attract and retain talent and to satisfy the increasing demands of stakeholders (customers, banks, investors, regulators, etc.).

WHY SHOULD YOU USE SME PACKAGES - SUSTAINABILITY?

With **SME Packages - Sustainability**, you will receive individualised assistance while identifying practical solutions to reduce your environmental impact. This will generate savings by decreasing your energy or water consumption, improving your waste management, or reducing your carbon footprint.

By using **SME Packages - Sustainability**, you may combine economy and ecology by undertaking a first project that has a positive impact on the following areas:

● **Energy:** implementation of energy reduction tools

● **Water:** implementation of water reduction tools

● **Waste:** implementation of waste management or reduction tools

● **Carbon footprint:** carbon assessment and action plan

WHAT ARE THE STEPS?

1

Analysis of your current situation

Make an appointment with the House of Entrepreneurship of the Chamber of Commerce or the eHandwerk department of the Chamber of Skilled Trades and Crafts for a pre-analysis of your current situation in terms of sustainable development to identify priority actions.

2

Definition of your package and choice of service provider

You get to choose your package and the service provider that best meets your expectations. Together, you define a quote for an amount between €6,650 (VAT excluded) and €25,000 (VAT excluded).

3

Submitting and reviewing your application

Your application is completed by a House of Entrepreneurship adviser or by an eHandwerker adviser for craft businesses. Your request is submitted to the Approval Committee, which analyses and makes a decision on your application.

Once your application has been approved, you can proceed to approve the estimate and carry out the project.

4

Implementation of your package

The service provider implements the sustainable solution according to the chosen package.

5

Assessment of your package

Once the service provider has finished providing support, an evaluation meeting will determine your level of satisfaction and savings made. At that point, the application process will be deemed closed.

6

Your voucher

The final bill is paid to the service provider. The General Directorate for Small and Medium-Sized Enterprises of the Ministry of the Economy will provide you with a grant of €5,000.

AM I ELIGIBLE FOR THIS PACKAGE?

YOU ARE ELIGIBLE IF:

- ✓ You have a business permit granted by the General Directorate of Middle Classes of the Ministry of the Economy;
- ✓ Your company meets the conditions for SMEs in terms of staff, annual turnover, and annual balance sheet.
